STRENGTHS

Applied Research

Virtual/Augmented Reality

Computer Graphics

Data Visualisation

User-Centred Design

Qualitative Study

Fast prototyping

SKILLS

XR Development R

Java C# C++ Unity

3Ds Max SQL

Full-stack Web Development

Arduino

ABOUT ME

Highly passionate HCI PhD researcher specialising in computer graphics, visualisation, XR technologies, and user-centred design.

RESEARCH AND ACADEMIC EXPERIENCE

Research Assistant | Monash University

July 2024 – Present

Melbourne, Australia

- Medical Imaging Visualisation and Interactive Segmentation using XR and AI

Teaching Associate | Monash University

Aug 2022 – Present

Melbourne, Australia

- Data Visualisation and Exploration, Bachelor (FIT3179) and Master (FIT5147)

EDUCATION

PhD Candidate | Data Visualisation and Immersive Analytics Lab, Monash University

Aug 2021 – Present

Melbourne, Australia

- Project title: Immersive Forensic Investigation

M.Sc. in Software Engineering | University of Tehran (Rank #1 in Iran)

Sep. 2016 – Jun. 2019

Tehran, Iran

- Project title: Muscles Multi-Volume Visualisation by an Enhanced Ray Casting Technique in Multi-Slice CT Images - GPA: 19.14 / 20

B.Sc. in Software Engineering | Amirkabir University of Technology (Rank #3 in Iran)

Sep. 2011 – Sep. 2016

Tehran, Iran

- Final project topic: Implementation and Visualisation of a Distributed Colouring Algorithm on clusters for Big Graphs using Apache Spark (High Performance Computing) - GPA: 17.95 / 20

PUBLICATIONS

Full paper: Vahid Pooryousef, Maxime Cordeil, Lonni Besançon, Richard Basset, and Tim Dwyer. "Collaborative Forensic Autopsy Documentation and Supervised Report Generation using a Hybrid Mixed-Reality Environment and Generative AI," in *IEEE Transactions on Visualization and Computer Graphics*, 2024. [Download][Video demo] | [IEEE Xplore](#)

Full paper: **Vahid Pooryousef**, Maxime Cordeil, Lonni Besançon, Christophe Hurter, Tim Dwyer, and Richard Basset. 2023. "Working with Forensic Practitioners to Understand the Opportunities and Challenges for Mixed-Reality Digital Autopsy," in *Proceedings of the 2023 CHI Conference on Human Factors in Computing Systems (CHI '23* - the most reputable venue in human computer interaction), April 2023. [Download][Video demo] |  [ACM DL](#)

Workshop paper: **Vahid Pooryousef**, Maxime Cordeil, Lonni Besançon, Richard Basset, and Tim Dwyer. 2024. "Towards Crime Scene Analytics with Extended Reality: Opportunities, Challenges, and Direction," in *Proceedings of the 2023 CHI Conference on Human Factors in Computing Systems (ISMAR '24)*, October 2024. [Download] |  [IEEE Xplore](#)

Short paper: **Vahid Pooryousef**, Ross Brown, and Selen Turkey. 2019. "Shape Recognition and Selection in Medical Volume Visualisation with Haptic Gloves," in *31ST AUSTRALIAN CONFERENCE ON HUMAN-COMPUTER-INTERACTION (OZCHI'19)*, December 2019. [Download] |  [ACM DL](#)

Full paper: **Vahid Pooryousef**, Malihe Molaie, and Reza Aghaeizadeh Zoroofi. "A Fast Method for Medical Multi-Volume Visualization," in *26th National and 4th International Iranian Conference on Biomedical Engineering (ICBME)*, November 2019. [Download] (Persian)

ACADEMIC SERVICES

Co-Chair of Open Science Practice | [Journal of Visualisation and Interaction](#)

 July 2024 – Present

Co-Chair of Student Volunteers Committee | [IEEE VIS '23 Conference](#)

 Nov 2022 – Nov 2023

 Melbourne, Australia

Co-Supervisor of a Master Student | [Monash University](#)

 August 2024 – Present

 Melbourne, Australia

Reviewer

- 2 papers for CHI '24 and '25
- 2 papers for ISMAR '23 and '24
- 1 paper for VRST '24
- 1 paper for Journal of Computer Graphics and Applications

MEDIA COVERAGE/PUBLICITY

Australian Media:

The Australian: "Tim Dwyer is the leading researcher in computer graphics" | 

 Nov 2023

- speaks about my project, autopsy with augmented reality

ABC News & Communications of the ACM: "Forensic imaging technology helps virtual autopsies outnumber invasive post-mortem procedures" |  | 

 Feb 2023

- showcasing a demo of my project

The Age: "Solving the digital dilemma facing corporate Australia" | 

 Jan 2023

- describing my PhD as an example of successful research projects at Monash University

International Media:

Swedish National Radio: "Så kan forskare undersöka döden på ett nytt sätt" | 

 August 2023

Le Point (Top 3 news agency in France): "Une autopsie virtuelle... pour un cadavre bien réel" | 

 May 2023

PUBLISHED MEDIA ARTICLES

The Conversation: "What is Sora? A new generative AI tool could transform video production and amplify disinformation risks", written by Vahid Pooryousef and Lonni Besançon | 

 Feb 2024

Immersive Futures @ Medium: "Pros and Cons of Becoming Cyborgs with Neuralink", written by Vahid Pooryousef and Jessica Bou Nassar | 

 Feb 2024

HONORS AND AWARDS

- Graduate Research Industry Partnership scholarship from Monash University, 2021

PROJECTS (INCLUDES PAID PROJECTS)

Computer Graphics

- An augmented reality system for medical data analysis with new interaction techniques using Unity and MRTK – Aug. 2021 - current
- A fast multi-volume rendering of Muscles using VTK - 2019

Web-based Applications

- Full-stack development of a ticket selling website, with the visual seat allocation system (paid) - 2018
- Customised several wordpress template and plug-ins (paid)– 2015-2019
- An autofill web-extension (paid) - 2021
- Full-stack development of A responsive social media web app - 2015
- An online donation web application (paid) - 2018

High Performance Computing

- Implementation and Visualisation of a Distributed Colouring Algorithm on a Cluster for Big Graphs using Apache Spark, GraphX and Hadoop. 2016

Information Retrieval

- A Static Search Engine, with high performance and efficiency that search among thousands of documents, finds more relevant according to content, synonyms etc, the best one in the class (took about 100 work-hours). May - June 2014

Compiler

- Implementing a compiler using ANTLR (in Java), Dec. 2015

Advanced Programming

- Strategic Graphical Game (called Jumong2), written in Java. Mar. – June 2013

Programming Languages

- Designing and Implementing of an Interpreter for Anonymous Language (in OCaml-ML), Jan. 2015

Advanced Graph Theory

- Implementing the K-clique densest subgraph problem calculator (in R), Dec. 2016

Distributed Systems

- Implementing a Consensus Algorithm using Kompic(in Java),Jun. 2017

Operating System

- Device Driver for Linux (in C), Nov. 2014
- Chat Room Program for Linux (in C), Nov. 2014

Data structure

- Puzzle solver with trees (in C++), Jan. 2014

Computer Architecture

- Simulate Complete ALU (in Proteus), May 2014
- Designing Basic Computer, May 2014

Computer Architecture Lab

- Basic Computer on FPGA (in VHDL), Jan. 2015

Microcontroller Lab

- Design, Code, and Making an Electrical Circuit for Digital Door Lock with SMS Notification - May 2014

DETAILED TECHNICAL SKILLS

AR/VR application development

- Competent in: **Unity and Mixed Reality Toolkit** for VR and AR headsets

Computer Graphics

- Competent in: **Vertex/Fragment/Compute Shader Programming, HLSL, OpenGL and GLSL, VTK**

Data Analytics and Visualisation

- Competent in: **R, D3, Tableau, and Vega-lite**
- Basic Knowledge: **PowerBI, Matlab, Python**

Cloud platforms

- Competent in: **AWS, Azure**

Windows and Linux Programming

- Competent in: **JAVA** (My main programming language, Inc: Swing, JavaFX, Hibernate, J2EE, Tomcat, Android app development, etc.), **C#, C++** and **C**
- Basic knowledge: **Python, OCaml**

Windows and Linux Programming

- Competent in: **PHP, HTML5, JS (+jQuery), CSS**
- Basic knowledge: **JSP**, and other **J2EE** technologies

Database

- Competent in: **MySQL/MariaDB, Complex SQL Queries, Relational Database Design**

Distributed Frameworks

- Competent in: **Spark**
- Basic knowledge: **Elastic Search**

Art Technologies

- Competent in: Modeling and Animating in **Autodesk 3Ds Max** (since version 5 to 2011), **Adobe Photoshop**, and **Adobe Premier**

Hardware

- Competent in: **AVR** and **Ardinuo** programming, Circuit designing (Proteus)
- Basic knowledge: VHDL & FPGA

Other software tools

- Microsoft Office, Android Programming, Assembly x86, Lisp
